

Lock Picking Meeting January 15th

Hello everyone! This thursday (1-15) at 7pm will be the first Fraternal Order Of Lock Sport meeting of the new year. Please feel free to drop on by dosman's apartment with or without your picks, we have plenty to spare. We also have pick sets for sale if you are interested.

We will start off with a couple short videos from the LSS+ video series on advanced lock picking tools. Next we will cover basic lock picking skills for first timers and also have time for everyone else that has slacked off over the past couple of months to refresh their skills. Lastly we will have lock opening speed challenges (first timers welcome!) with times to be recorded for skill progress tracking.

Please feel free to bring your friends, this is an open meeting. Also bring your locks. If you need directions to dosman's place please send mail to dosman [at] packetsniffers.org
