

Phreaknic 13

Phreaknic 13 was a blast! Dosman gave a talk along with Dave from TOOOL entitled "Lock Picking is Not a Crime - Unless you are here", referring to the recent change in Tennessee State Law outlawing lock picks for hobbyists. The talk was not focused on the law, however videos of lock picking were used to demonstrate picking without breaking any laws. The slide show and video of the talk will be posted here shortly. Also Ulysses from the Cowtown Computer Congress gave a very good talk entitled "A Brief History of Locks".
